App passwords

Select an app, then generate an app password

Thunderbird

Generate

A random password will be generated. Copy that password on to a notepad or a piece of paper. Click on [Done](#) to finish

App passwords

Here is your app password for Thunderbird

■■■■

How to use this app password

1. Go to the settings section of your app
2. Find the screen where you enter your Yahoo account username and password
3. Copy the app password above and paste it into the password field

Done

We can now move on to configuring [Mozilla ThunderBird](#) to work with your Yahoo Mail.

Once you have ThunderBird install and you launch it for the first time, you will get this welcome message. You just select [“Skip this and use my existing email”](#).

Welcome to Thunderbird

Would you like a new email address?

Your name, or nickname

In partnership with several providers, Thunderbird can offer you a new email account. Just fill in your first and last name, or any other words you'd like, in the fields above to get started.

☒ gandi.net

The search terms used are sent to Mozilla ([Privacy Policy](#)) and to 3rd party email providers gandi.net ([Privacy Policy](#), [Terms of Service](#)) to find available email addresses.

Next you will get the account setup window. Enter your Name, Yahoo email address and the password you generated from Yahoo earlier. Then click on **Continue**.

Note: If you don't want to have to enter your password every time you launch ThunderBird, put a check on the Remember password tick box

Mail Account Setup

Your name: Your name, as shown to others

Email address:

Password: ☒ Remember password

After ThunderBird completes checking online for the necessary settings, you will get the message below. You just need to click on [Done](#) and your email should start downloading into your ThunderBird.

Mail Account Setup

Your name: Juan Konek Your name, as shown to others

Email address: juan@yahoo.com

Password: ••••••••

☒ Remember password

Configuration found in Mozilla ISP database
